INFLATION EQUIPMENT

Inflation equipment to use on the following airbag types:

- **Heavy**
- **Medium**
- **Reuse**
- **Light**

We recommend that you always use the original filling equipment and a reliable compressor to inflate airbags from Bates Cargo-Pak. Inflation times appear on the separate datasheets for each type of airbag.

Compressed air

All types of compressors can be used to inflate airbags from Bates Cargo-Pak. The compressor and tank capacity should be determined based on the need and actual use of the airbags.

The demand on the compressor and tank capacity depends on:

- Number of airbags to be filled
- The size of the airbags
- The gaps between the cargo
- The required filling time

The choice of inflation equipment, hose dimension and length of hose all have an influence on the filling time

Bates Standard Inflator

Bates Standard Inflator (blue metal nozzle)

- Ensures an optimal and quick filling time
- Very easy to connect to the hose with a clip
- Supplied as standard so it fits to a 1/2" hose, but can be supplied with a 3/8" hose connector

Bates Standard Inflator is available with a manometer Ø40 mm (scale 0-2,5 bar) or Ø63 mm (scale 0-1,0 bar)

Filling nozzles and other accessories can be ordered separately (see back page)

*Bates Standard Inflator,
item no. 096072*

*Bates Standard Inflator
with Ø40 mm manometer,
item no. 096073*

*Bates Standard Inflator
with Ø63 mm manometer,
item no. 096086*

Bates Quick Inflator

There are many advantages by using Bates Quick Inflator:

- The fastest filling time in the market
- Inflation can be done from the side, which makes it very easy to use in small gaps
- The lock coupling acts as an extension of your arm and makes it very easy to hold the airbag in the gap during inflation

Bates Quick Inflator is supplied with a 1/2" snap coupling to ensure optimal and fast filling time. Very easy to connect to the hose with a clip.

Bates Quick Inflator is available with a hose and manometer Ø40 mm (scale 0-2,5 bar) or Ø63 mm (scale 0-1,0 bar)

Lock coupling and other accessories can be ordered separately (see back page)

*Bates Quick Inflator,
item no. 096078*

*Bates Quick Inflator
with hose,
item no. 096077*

*Bates Quick Inflator,
with hose and Ø40 mm
manometer, item no. 096075*

*Bates Quick Inflator,
with hose and Ø63 mm
manometer, item no. 096088*

Accessories

Filling nozzles and handles

Filling nozzle, Standard Inflator, blue, aluminium, 80 mm, item no. 096061

Lock coupling for Quick Inflator, item no. 096054

Hose and lock coupling for Quick Inflator, item no. 096079

Handle for Inflator, item no. 096060

Handle for Quick Inflator, item no. 096074

Couplings with and without valve

1/2" snap coupling without valve for Quick Inflator, item no. 096050

1/2" snap coupling with valve for Quick Inflator, item no. 096051

3/8" snap coupling with valve for Quick Inflator, item no. 096030

3/8" snap coupling with out valve for Quick Inflator, item no. 096034

hose connector for Standard Inflator, item no. 096057

Male coupling for Standard/Flex Inflator and Quick Inflator (fitted on the inflator for quick change between different inflators), item no. 096069

Connection

1/2" hose (50 m) item no. 096035

1/2" clip, item no. 096036
3/8" clip, item no. 096033

Manometer

Manometer with protective casing (Ø40 mm – scale 0-2,5 bar), item no. 096053

Manometer with protective casing (Ø63 mm – scale 0-1,0 bar), item no. 096041
